ADDRESS CORRECTION REQUESTED **RUSH — TIME DATED**

JUNE 28-JULY 18, 1986

TODAY & TOMORROW

Some 20 children—ranging in age from infancy to the teen years—who are UCSF "heart surgery alumni" held a special farewell celebration on campus on June 20 for their doctor, internationally renowned pediatric heart surgeon Paul A. Ebert, MD.

Ebert is leaving his post as professor and chair of the UCSF Department of Surgery later this month to assume the directorship of the American College of Surgeons in Chicago.

Referred to UCSF for their surgery from Kaiser Hospital in Sacramento, the children who participated in the farewell represented the "Kaiser Kids Heart Fund," a fund-raising and support group for families of children with congenital heart defects. The young delegation presented Ebert with a scrapbook featuring pictures of his former patients.

Since his appointment in June 1975 as chair of the surgery department, it is estimated Ebert has performed surgery on complicated heart defects in more than 5,000 children.

By a three to two margin, voters in Mendocino County overwhelmingly defeated an initiative that would have halted the sale of unclaimed pound animals to UCSF for medical research.

In the final count, the June vote was 11,254 opposed to ballot Measure A and 7,659 in favor.

The county sells about 300 abandoned dogs each year to UCSF at $40 each. Had the measure passed, UCSF would have had to breed its own dogs for research, at a cost of some $400 each.

According to Robert Werra, MD, one of the leaders of Citizens in Favor of Humane Animal Research (CIFHAR), a group that fought to defeat Measure A, the results confirmed nationwide polls that showed that the majority of people favor using pound animals for research.

Joseph Spinelli, DVM, director of the UCSF Animal Care Facility, and Assistant Chancellor Thomas Gwyn worked closely with CIFHAR to educate the voters of Mendocino County on the importance of animal research.

In a related development, voters in San Bernardino decided by a narrow margin, 9,290 to 9,077, to continue the sale of abandoned animals to Southern California research centers.

The UCSF Mailing Division is urging employees to use the mail stop box numbering system whenever possible.

The new system uses four digits instead of a street or room address. It can help speed up mail sorting and delivery, not only between campus departments, but also incoming mail if outside individuals add the same box number to our 94143 zip code.

Approximately 20% of the campus mail now can be addressed by box number. According to David Adams, the new mailing division manager, the percentage soon will be greatly increased. All box numbers are listed in the campus directory. For further information call Adams at x65975.

The UCSF Library is offering four new sessions of the "Basics of Searching MEDLINE." All seminars are designed to teach the basic techniques for searching MEDLINE on the National Library of Medicine's MEDLARS system. They are open to all health-care practitioners, researchers and students affiliated with UCSF. Cost of each session is $50 for students and residents; $80 others. Dates for the seminars are as follows:

- Session S-1: Sat., July 26, 8 a.m.-6 p.m. An intensive seminar structured for those with some knowledge of online searching. Lectures will be interspersed with online practice. Participants will be requested to do some preparatory work for the seminar.
- Session S-2: Sat., Nov. 1 and 8, 9 a.m.-4 p.m. Structured for individuals who prefer a two-day format, which allows more time for discussion and practice.
- Session R-1: Wed., Aug. 20, 8 a.m.-5:30 p.m. An eight-hour lecture/discussion followed by an optional two-hour online practice session on Thurs., Aug. 21.
- Session R-2: Wed., Oct. 1, 8 a.m.-5:30 p.m. An eight-hour lecture/discussion followed by an optional two-hour online practice session on Thurs., Oct. 2.

Applications are available at the reference desk or administrative office in the UCSF Library, Room S 257. Enrollment is limited to 10 people per session. For further information call Carol Yates-Imah, Elisabeth Bell or Jim Mackie at x68253.

CONTINUING EDUCATION

DENTISTRY

Held in C 701. Call x61101.

Restoration of Coronally Debilitated Teeth. July 18.

Dental Auxillaries as Viable Players of a Dental Practice. July 19.

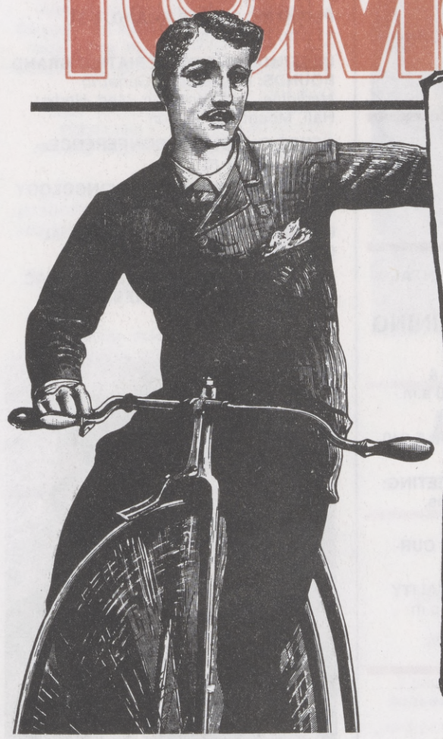
DEADLINE

Deadline for the next issue of *Today & Tomorrow,* covering the time period July 19-Aug. 8 (three weeks), will be Tuesday, July 8, 11 a.m. Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300, x61541 or x62557.



TOP AWARDS TO BELL & BALLARD

Robert E. Bell, DDS, of San Francisco, and Craig Ballard, PharmD, of San Diego, are the recipients of the top awards presented in their respective graduation ceremonies.

The Francis A. Sooy Chancellor's Cup, which goes to the graduating dental student judged by faculty and peers as being most outstanding in the class, was presented to Bell during the School of Dentistry commencement on June 14. Runners-up were Shelley H. Miyasaki of San Jose and Scott A. Holm of San Francisco.

Bell also is the winner of the American Association of Oral and Maxillofacial Surgeons Award, the Alpha Omega Fraternity Award and the Milton F. and Mary L. Gabbs Award. He received his BS in zoology from Brigham Young University in Provo, Utah. He has been admitted to the UCSF postgraduate program in oral and maxillofacial surgery.

Ballard was presented the Bowl of Hygeia, the School of Pharmacy's top award, during commencement on June 22. Ballard, estimated by fellow students and faculty as best demonstrating the qualities of the ideal pharmacist, also was the recipient of outstanding service awards from both the School of Pharmacy and the Associated Students of the School of Pharmacy, which he served as president in 1985. Ballard received his BS in biological science from UC-Irvine in 1982.

Runners-up were Paul Donatoni of Santa Monica, Bernadette Dugoni-Kramer of Burlingame, Cheryl Hirata of Carson, CA, and Mary Evelyn Rose of San Francisco.

Anselm L. Strauss, PhD, professor of sociology in the Department of Social and Behavioral Sciences, School of Nursing, has been selected the thirtieth Faculty Research Lecturer at UCSF. The lectureship, highlighted by a campus lecture on Founders Day, tentatively set for April 1987, is the highest honor the UCSF faculty can bestow on one of its members.

Strauss has been on the UCSF faculty for 26 years. He chaired the Department of Social and Behavioral Sciences from 1976 to 1980 and the graduate program in sociology from 1968 to 1972. He is internationally renowned for his work in medical sociology, the sociology of professions and occupations, and the methods of qualitative analysis. He has written some 20 volumes on these and other subjects. His eminence has brought scholars from all parts of the world to this campus, and has helped to firmly establish the reputation of UCSF in the world of sociology.

Strauss was elected to fellowship in the American Association for the Advancement of Science in 1980. He received the Distinguished Medical Sociologist Award from the American Sociological Association in 1981, the 1980 Charles H. Cooley Award and the 1985 George Herbert Mead award, both from the Society for the Study of Symbolic Interaction, and the 1985 Helen Nahm Award from the UCSF School of Nursing.

The final environmental impact report for the development and use of UCSF-Laurel Heights has been forwarded to the Regents for consideration at their July 17 meeting at UC-Santa Cruz. The plan calls for all School of Pharmacy basic science academic programs to move into Laurel Heights.

At a special public information meeting held in June after the environmental impact review process had officially closed, some 250 residents of the area expressed fears about the possibility that these programs would pollute the neighborhood with "radioactivity" and "toxic waste" and they asked

HELP ELIMINATE SCHEDULING CONFLICTS

In order to help the campus avoid conflicts in scheduling important events, News & Public Information Services Department has a computerized calendar. It is suggested that faculty, students & staff call x61541 when they are planning an event to make sure nothing has been scheduled for that date. Please note that in order to reserve campus conference rooms and auditoriums, it still is necessary to call Millberry Union at x62571, room reservations at x64436, Faculty/Alumni House at x64723, Laurel Heights at x68100 or the individual school or department.

* — Open to the public

MOBILE MAMMOGRAPHY SCREENING SCHEDULE

Women now can have low-cost mammograms—x-rays to screen for breast cancer—from a mobile van that travels to convenient shopping or downtown locations in San Francisco and remains for a week at a time.

Women need the approval of their physicians to have the mammogram. The procedure takes approximately 20 minutes and costs only $40. To make an appointment call 990-0459 or 476-2193 between 9 a.m. and 3:30 p.m.

The van will be at the following locations for the next three weeks:

June 30-July 3: UCSF, in parking lot across from 350 Parnassus Bldg.

July 7-11: Taraval Safeway, on Taraval between 17th & 18th Ave.

July 14-18: Lick Super, on 7th Ave. between Geary & Clement.

(Laurel Heights continued)

that the EIR process be reopened.

After careful consideration, Chancellor Krevans decided not to extend the EIR because, as he stated in a special letter to the neighborhood, "I believe that our public information process was more than adequate; that we have made significant changes from our original plans for the facility in response to concerns expressed by neighbors; and we are certain that the School of Pharmacy research programs we plan to move to Laurel Heights constitute no health danger whatsoever."

Among the changes in the original plans, made in response to concerns expressed by community people at four public information meetings, three meetings of the Laurel Heights Campus Planning Committee and in informal discussions and letters, were:

- a revised engineering plan which would reduce the height of exhaust vents to approximately the height of mechanical penthouses already on the roof;
- elimination of a plan to add parking places by paving over some of the lawn on the east border and create a dock for receiving equipment and supplies;
- maintain lawn and landscaping on Presidio Street and elsewhere on the site;
- deliveries to be split between vehicles going into the Presidio Street garage and into the California Street entrance;
- the amount of parking on the site maintained at no less than 515 spaces;

In addition, the campus has asked the Bay Area Air Quality Management District to conduct baseline monitoring of the site area prior to occupancy of the building and to establish monitoring procedures thereafter.

The community still has an opportunity to respond to the final EIR directly to the Regents.

Copies of the final EIR are available from Barry Clagett, 145 Irving Street, or from the UCSF-Laurel Heights administrative offices. 3333 California Street.

A memorial service for Jesse Davis, MD, will be held on Sunday, July 13, at 4 p.m. in Cole Hall. A 1970 UCSF graduate, Davis had been an assistant clinical professor of medicine since 1982. Davis died on May 21. A memorial fund has been established in his honor. Make checks payable to the Jesse Davis Memorial Fund, c/o Melvin Scheinman, Box 0214, Room M 312.

Several hundred AIDS researchers from around the world gathered at the International Conference on AIDS, June 23-25 in Paris. UCSF researchers made some 70 presentations on the latest AIDS research being conducted on this campus and the affiliated SFGH and VAMC.

Paul Volberding, MD, assistant professor, medicine, and director, AIDS Activities at SFGH, served on the international program committee. Jay A. Levy, MD, professor, medicine, and an investigator at the UCSF Cancer Research Institute, served on the international advisory committee. Keynote speakers were Levy, John Ziegler, MD, professor, medicine, and director, UCSF AIDS Clinical Research Center; and James Dilley, MD, director, UCSF AIDS Health Project.

Graduate students Karen Heller, Joshua Kaplan, Joshua LaBaer, William Nikovits, Jr., and Eve Perara have been honored with Chancellor's Graduate Research Fellowships. Marcia Grant received honorary mention.

The fellowships are awarded to doctoral candidates for excellence in research. Students are selected on the basis of research accomplishments, prior academic achievement and potential for future contributions to the health sciences.

Heller is enrolled in the medical anthropology program and is studying how the press and media are covering AIDS and their influence on the public. She also is editorial coordinator of a computerized textbook on AIDS, written and edited by UCSF physicians.

Kaplan and LaBaer both are students in the medical scientist training program. Kaplan is in genetics and is working with J. Michael Bishop and Harold Varmus to find out how oncogenes work. LaBaer is in biochemistry with Keith Yamamoto and is developing an in vitro assay for glucocorticoid regulation of gene transcription.

Nikovits enrolled in the anatomy program in 1983. His present work in Charles Ordahl's lab focuses on the molecular biology of muscle specific genes.

Perara entered the endocrinology program in 1982. She works in the laboratory of V.R. Lingappa on the translocation of proteins across the endoplasmic reticulum membrane.

Grant's research is concerned with malnutrition due to loss of appetite in cancer patients. She is working with Marilyn J. Dodd in the School of Nursing.

Five UCSF faculty members have been awarded the Academic Senate's Distinction in Teaching Award. They are: Marylin J. Dodd, PhD; Kathleen M. Giacomini, PhD; Pearl Tak-Chu Yau Toy, MD; Donald E. Ganem, MD; and Stephen G. Lisberger, PhD.

An American Cancer Society Professor, Dodd recently was appointed interim chair of the Department of Physiological Nursing, School of Nursing. She has been associate professor since 1984. Dodd has received several awards for her work with cancer patients as well as the Teacher of the Year Award from the School of Nursing in 1985.

Giacomini has been an assistant professor of pharmacy since 1981. Recipient of the School of Pharmacy's Long Foundation Award in 1984, she teaches pharmacokinetics to pharmacy, medicine and PhD students. Her impressive research record includes 27 publications, 8 invited lectureships and several large research grants.

Toy, an assistant professor of laboratory medicine since 1980, recently received the Transfusion Medicine Academic Award and the Department of Laboratory Medicine Faculty Teaching Award. She has a national reputation as a top educator and authority in transfusion medicine.

One of this year's winners of the Kaiser Awards for Excellence in Teaching, Ganem has been an assistant professor of medicine and microbiology since 1982. Nominating letters describe Ganem as having "an impeccable, clear style of lecturing."

An exceptionally gifted scientist, Lisberger is an assistant professor of physiology. He came to UCSF in 1980 from NIH where he was a staff fellow in the Laboratory of Neurophysiology. Lisberger's major research is on the neural control of eye movements.

Six top awards were presented during the Department of Psychiatry commencement on June 13. Awards presented to graduating psychiatric residents included the Henry F. Albronda Award to Steven Cuffe, MD, for excellence in psychotherapeutic skill; the Alexander Simon Award to John G. Rosenberg, MD, for excellence in psychiatric teaching; the Creative Psychiatric Resident Award to Henry C. Markman, MD, for demonstrating unusual skill and creativity in the area of psychiatric research; and the National Psychiatric Endowment Fund-Laughlin Award to Terrence Becker, MD, for all-around excellence as a psychiatry resident.

The R.E. Harris Award, presented to the outstanding fellow in clinical psychology, went to Jeanne Miranda, PhD; and the Doctor of Mental Health Program Award, for outstanding clinical knowledge and skills, to Amy Kaufman, DMH.

HONORS & AWARDS

Margretta Styles, dean, School of Nursing: Elected president, American Nurses Association; received the honorary degree, Doctor of Humane Letters, from Valparaiso University, May 18.

Ida Martinson, professor, family health care nursing, School of Nursing: Elected president, Children's Hospice International.

Guenter B. Risse, professor & chair, history & philosophy of health sciences: Appointed fellow, Scottish Enlightenment Project 1986, University of Edinburgh.

Deborah Greenspan, associate clinical professor, oral medicine, School of Dentistry: Elected a member, board of directors, Experimental Pathology Group, International Association for Dental Research (IADR); participant, symposium on "Oral Health Research Implications of AIDS" at the IADR Congress in The Hague, The Netherlands, June 27.

Laurel E. Glass, director, UCSF Center on Deafness; professor, anatomy & psychiatry: Elected trustee, Gallaudet College, Washington, DC, the only liberal arts college for the deaf in the world.

Collin P. Quock, associate clinical professor, medicine: Elected president, California Affiliate, American Heart Association.

Patricia Benner, associate professor, physiological nursing, School of Nursing: Named the Lansdown Professor, University of Victoria, Feb. 26-28; Keynote speaker, First Phyllis J. Verhonick Research Conference, University of Virginia, Apr. 17.

Ivan Diamond, director, Ernest Gallo Clinic and Research Center; professor & vice chair, neurology; professor, pediatrics & pharmacology: Member, Medical Advisory Council of the Alcoholic Beverage Medical Research Foundation.

Elverne Tonn, associate professor, restorative dentistry, School of Dentistry: Session chair & presenter, International Association for Dental Research, The Hague, The Netherlands, June 26-28.

Sheldon Wolff, professor, radiology, anatomy; director, Laboratory of Radiobiology & Environmental Health: Appointed to the Department of Energy's Health & Environmental Research Advisory Committee by John S. Herrington, secretary of energy.

Callista Roy, associate research nurse, physiological nursing, School of Nursing: Guest faculty, Ninth Annual Head Trauma Conference, San Jose, Apr. 4-6; keynote address, Sigma Theta Tau Nursing Honor Society Meeting, Vanderbilt University School of Nursing; Northeast Missouri State University, Distinguished Lecturer.

John Severinghaus, professor, anesthesia; senior staff member, CVRI: Will receive the first American Society of Anesthesiologists' Award for Excellence in Research at the annual meeting in Las Vegas, Oct. 1986; annual Rovenstein Lecturer, New York Postgraduate Assembly, Dec. 1986.

Herbert A. Perkins, clinical professor, medicine; research associate, CRI: Received the Owen F. Thomas, MD Award from the California Blood Bank System.

Margaret Alderman, assistant clinical professor, mental health & community nursing, School of Nursing: Elected secretary, Golden Gate Nurses' Association, Region 12 CNA.

Maria O'Rourke, assistant dean for clinical affairs, SFGH; assistant clinical professor, mental health & community nursing, School of Nursing: Boston University's Distinguished Nursing Alumni Award.

Anne Davis, professor, mental health & community nursing, School of Nursing: Appointed the first visiting professor, BSN Program, Tienjin Medical College, China.

Daniel Furtado, assistant clinical professor, pharmacy, School of Pharmacy: Elected corporate secretary and received the Outstanding Service Award of the Year for Programs, Santa Clara County Chapter of the American Heart Association; elected a full member, American College of Healthcare Executives.

Philip R. Lee, director, Institute for Health Policy Studies: Appointed chair, Physician Payment Review Commission, US Congressional Office of Technology Assessment.

PUBLICATIONS

Susan E. Browne, School of Nursing, DNS, '85: Coeditor, *With the Power of Each Breath: A Disabled Women's Anthology* (Cleis Press, SF, 1985).

APPOINTMENTS

Marylin J. Dodd: Director, Robert Wood Johnson Clinical Nurse Scholars Program at UCSF. She recently was appointed interim chair, Department of Physiological Nursing, School of Nursing. Dodd came to UCSF in 1981 as an assistant professor, becoming an associate professor in 1984. She also holds the prestigious position of an American Cancer Society Professor of Oncology Nursing.

Catherine Gilliss, assistant professor, family health care nursing, School of Nursing: Elected chair, Family & Health Section, National Council of Family Relations.

Thomas D. Boyer, associate professor, medicine; chief, gastroenterology, VAMC: Elected a member, American Society of Clinical Investigation.

Steven A. Schroeder, professor, medicine; chief, Division of General Internal Medicine: Appointed to the National Board's Part II Preventive Medicine & Public Health Test Committee.

Laurie Weisberg, instructor, medicine & CRI: Received a $1000 Outstanding Research Trainee Award from the American Federation for Clinical Research.

James W. Crawford, Campus Tours/Speakers Bureau: Received an award of achievement from the Irwin Memorial Blood Bank for campus blood drive donations in 1986. This is the fourth consecutive year he has received this award.

IN MEMORIAM

William Byron Rumford, School of Pharmacy, '40. A Berkeley pharmacist, he served 18 years in the state Assembly, where he wrote California's most far-reaching civil rights legislation. The first black legislator elected in Northern California, Rumford won his seat in the Assembly in 1948 from a Berkeley-Albany district with a substantial white majority. Once in office he pushed through laws banning discrimination in the state National Guard and in the hiring of teachers. He sponsored many health bills and persuaded his colleagues in the state legislature to remove the sales tax from prescription medicine. Rumford was best known, however, for the Rumford Fair Housing Act which stirred one of the stormiest battles in California political history. The Act made it illegal to refuse to sell, lease or rent property for reasons of race, color, creed, religion or national origin. He left the Assembly in 1966 and later served six years as a member of the Federal Trade Commission.

Robert F. Sharp, former coordinator of external audit, who retired in 1982. Sharp came to the University in 1968 as chief of the management systems group, information systems, and became coordinator of external audit the year he retired.

Leo Warren Price, School of Dentistry, '43. He served in the Army Dental Corps from 1943 to '46, then operated a private practice for the next 40 years, until the time of his death. Contributions may be sent to the Peninsula Association for Retarded Children and Adults, Suite 106, 1870 El Camino Real, Burlingame 94010.
